

WHITEPAPER V1

\$BABYZORO TOKEN

Babyzoro Inu is a community controlled deflationary token, Babyzoro Inu's purpose is to develop solutions that will make the cryptocurrency space safer and easier to understand for everyone. And then we will donate 1% to charity for poor children and people in need.

The deflationary mechanism of the Babyzoro Inu token includes a redistribution system. 3% of each transaction is distributed as a reward to holders.

On top of this, 40% of the total \$BabyZORO supply will be burned, liquidity will be locked we will employ the use of Anti-whale Encrypted Contracts.

DISTRIBUTION TOKENS

59% LIQUIDITY

40% BURN

1% AIRDROP

Total supply

100.000.000.000.000.000

THE FUTURE OF \$BABYZORO

BABYZORO INU team is well aware that continuous development is crucial for keeping investors interested, it is as important as **community engagement and marketing**

The liquidity is locked, the development team gives up the admin rights of the contract, **The team does not have any tokens this is a community owned coin.**

We launched as a fairlaunch and started heavy marketing straight after, our committed marketing team managed to allow us to grow **from \$500 to \$5,000,000** market cap wise. Marketing is ongoing along with listings on coinsites.

Our upcoming plan is **to list on the upcoming CMC, CGK will continue to be listed on Mex, HotBit** and finally the product is **APP on IOS and Android.**
