ABOUT US

- Established in 2008, Hoang Long Seafood possesses over 18 years of expertise in Vietnam's Pangasius industry. Growing from an initial workforce of 2,300 employees, Hoang Long Seafood has expanded steadily to over 5,000 workers - achieving an annual raw material processing capacity of up to 130,000 metric tons.
- Strategically located in the heart of the Mekong Delta raw material hub, our processing plant benefits from an abundant supply of fresh fish and convenient access to both inland waterway and roadway logistics networks.
- The enterprise operates a fully vertically integrated value chain: spanning hatcheries, an aquafeed plant (150,000 metric tons/year), farming zones, processing facilities, and international-standard cold storage systems—underscoring our commitment to sustainable development and the consistent delivery of high-quality products.

PANGASIOUS

Pangasius is a versatile freshwater fish known for its mild flavor, firm texture and excellent value. Carefully processed from selected raw materials, pangasius is available in a wide range of cuts and specifications, making it suitable for retail, foodservice and various value-added seafood applications.
